

Dear Mr. Jacobs,

Thank you, Thank you, Thank you. Words can not express our gratitude for the job you have done for us. From the first time we had met, you were straight forward, honest and to tell you the truth a little scary.

You never lead us on to believe that our case was winnable. You stated to us that we had a long road to fix all of the wrongs and then to try to make them right. Your long hours of determination to win has paid off. You chose to always take the high road, even though once in a while I tried to change your mind with several goofy ideas.

You explained how the "law" should prevail. We were non-believers in our states justice system, since our case was never based on any lawyers actually following the "law". UNTIL WE MET YOU!

You unraveled a web of misdoings and wrongful accusations against my husband. You started from the beginning and began to rebuild our confidence in a

system that has barely given any father the rights they deserve. You took a case you believed in. You turned it into a win in the Circuit Courts, and then took on the Appellate Courts without any hesitation. You had faith in your ability as a lawyer and gave us back the realization that not all lawyers are just out for the money.

You saved us over \$30,000 in wrongful payments to my husbands ex-wife. You followed the law in every sense imaginable. You know the law, you played by the rules and it paid off. You are truly the BEST of the BEST!

I hope that the firm Shaw, Jacobs and Associates knows and appreciates what a wonderful attorney and person you are. We sure do. Thank you so very much!
